Who is CommVault?

Epic Technology Day - 2008

2007 'PRODUCT OF THE YEAR' AWARDS

GOLD AWARD – CommVault Simpana 7.0

According to storagesearch.com, 'Simpana is at the vanguard of the long-awaited consolidation of data protection apps. It folds backup, archiving, replication (including CDP), dedupe, search and data management reporting into a single package.'

'Praise for the Simpana package has been nearly universal. "I think this is the best offering on the market for unified data protection and data management," says one of our judges.'

Judges included editorial staff from *Storage Magazine* and SearchStorage.com, and a panel of users, industry experts, analysts and consultants, who chose winners based on qualifications including innovation, performance, ease of integration, ease of use, functionality and value.
